# NATIONAL MODEL SCHOOL COIMBATORE

## ABOUT US

National Model School started its journey in 1987, incepted by the Founder Correspondent (Late) Dr. P. N. Palanisamy with a vision of creating a new model of quality education. National Model school began with two students under the Matriculation curriculum, and now it has grown in leaps and bounds to reach 4756 students facilitated by three institutions following State, Central and International Curriculum. The school maintains a steady 15:1 student to teacher ratio.

## DISTINCTIVE FEATURES

NATIONAL MODEL provides a balanced curriculum that is designed to emphasize on the development of concept, knowledge, skills, attitudes and self-initiated action in students inside the learning spaces and on playground as well. We prepare children for careers of the 21<sup>st</sup> century that require critical thinking, collaboration, creativity and problem solving. Our faculty begin training the students not for the class, not for the subject. They plan individual strategies for each child as 'ONE SIZE-FITS ONE'.

## FORTHCOMING DEVELOPMENTS

- Enhanced classroom infrastructure to promote peer-learning and collaborations.
- Replacing projectors into interactive digital walls thereby bringing the world into the classroom.
- Self-guided and group learning clusters of outdoor learning lounges are to be set-up.
- To pursue educational excellence, National Model Schools collaborate with Finland Educationists for continuous support and training in teaching practices, infra-structure up-gradation and technical innovation.
- Differentiated learning strategies in classroom catering to the varied learning capabilities.

## GREATNESS FACTORS

- Wholesome development of a child, balancing academic and sports
- All the 3 schools are housed in a sprawling 20 acres of serene land.
- State-of-art facilities to match international standards
- Soft skills training as part of the curriculum
- Personalized programmes for students appearing for secondary and senior secondary boards.
- Student driven programmes to bring up students who are responsible and accountable
- Winner of British Council's 'International School Award' from 2015-2018
- SOE's Global Education Award conferred as the "Outstanding School" of the year 2014
- National Model has been hosting foreign students from Germany, France and US through Rotary Club's Student - Exchange Programme
- To provide the students with global exposure, the school has arranged for Science Camps at NASA and educational trips to countries like US, UK & Dubai
- Central Government's NITI AAYOG funded "ATL TINKERING LAB" functions at our premise that aids students of our school and our neighborhood, to become inquirers and innovators in STEM.

## ALUMNI'S MESSAGE

"My school, time and again had taught me to dream and walk with my head held high. National Model was different from other schools in every possible way. Our weeks with extra-curricular activities, our months with religious harmony prayer, and our calendars filled with field-trips and our academic year with no exams till class 8. It was a delight to be at school every day. The willingness to go the extra mile is what makes National Model a unique place."
